+201121588820

Frontend Web Developer with more than 4 years' expertise in React.js and Next.js, focused on building high- performance, user-centric web applications. Skilled in creating responsive, visually appealing interfaces that balance aesthetics and functionality. With problem-solving and communication skills, I bring fresh ideas and best practices to drive user engagement and align with business objectives.

## Work Experience

---

### Frontend Developer React.js - Next js

SuefyAds-Beni Suef

July 2021 to Present

Full-time

- **Develop and Maintain Web Applications:** Build responsive and dynamic more than 3 web applications and website using React.js and Next.js, ensuring high performance and scalability across various devices .
- **Collaborate with Cross-Functional Teams:** Work closely with designers, backend developers, and product managers to translate UI/UX designs into interactive and efficient web pages and components.
- **Optimize Web Performance:** Implement performance optimization techniques such as code -splitting, lazy loading, and caching to ensure fast load times to increase website speed up to 50% faster and smooth user experiences based on google page speed to improve website SEO search engine optimization.
- **Ensure Code Quality and Consistency:** Write clean, maintainable, and well-documented code while adhering to coding standards and best practices, including using TypeScript for type safety and Redux for state management.

**Integrate APIs and Third-Party Services:** Collaborate with backend developers to integrate RESTful APIs, GraphQL endpoints, and third-party services, ensuring seamless data flow and functionality within the application.

### UI-UX Designer

SuperMsoft for Advanced Solutions.-Remote

March 2018 to February 2022

- **Create User-Centered and Responsive Design Interfaces:** Develop intuitive and visually appealing more than 5 projects using Figma, ensuring that designs meet user needs and business objectives while providing a seamless user experience.
- **Conduct UX Research and Testing:** Perform user research, create personas, and conduct usability testing to inform and validate design decisions, improving overall user satisfaction.
- **Collaborate with Development Teams:** Work closely with frontend developers to ensure that designs are accurately implemented, providing design assets and guidance to maintain design integrity throughout the development process.

### Junior Frontend Web Developer

SuefyAds-Beni Suef

February 2020 to July 2021

- **Develop Interactive User Interfaces:** Build responsive and dynamic web pages using React and Tailwind, ensuring consistency with design guidelines and optimal performance across devices.
- **State Management with Redux:** Implement and manage application state using Redux, ensuring efficient data flow and consistency throughout the application.

- **API Integration:** Collaborate with backend developers to integrate RESTful APIs, handling data fetching and synchronization using React Hooks, ensuring smooth and efficient communication between the frontend and backend.

- **TypeScript and Node.js Collaboration:** Write clean and maintainable code using TypeScript, and work closely with Node.js developers to ensure seamless integration and functionality across the full stack

## **Team Leader of Social Media and Graphic Design**

SuefyAds

August 2018 to March 2020

- **Lead and Mentor the Creative Team:** Oversee and guide a team of social media specialists and graphic designers, ensuring that projects are executed effectively and align with the brand's vision and strategy.

- **Develop and Implement Social Media Strategies:** Create and execute comprehensive social media strategies to increase 30% brand awareness, engagement, and follower growth across various platforms 18000 followers, while monitoring performance and making data-driven adjustments.

- **Oversee Creative Content Production:** Manage the production of high-quality graphic design content, including visuals for social media, marketing campaigns, and branding materials, ensuring consistency with brand guidelines.

- **Collaborate Across Departments:** Work closely with marketing, content, and product teams to align social media and design efforts with broader company goals, ensuring cohesive and impactful messaging across all channels.
